PROFESSIONAL SUMMARY

Landing Page Developer/Designer with 4+ years of experience creating responsive, conversion-focused pages for eCommerce, automotive, and marketing campaigns. Skilled in Figma, WordPress, Shopify, GoHighLevel, HTML/CSS, CRO, UX/UI design, and intermediate workflow automation to streamline repetitive tasks and improve project efficiency. Strong in visual hierarchy, brand consistency, responsive design, and turning business goals into clean, high-converting landing pages.

KEY SKILLS

Landing Page Design | Landing Page Development | UX/UI Design | Responsive Web Design | Conversion Rate Optimization | Figma | WordPress | Shopify | GoHighLevel | HTML/CSS | Workflow Automation | Client Communication

PROFESSIONAL EXPERIENCE

FRONT-END DEVELOPER / WORDPRESS DEVELOPER

Cherrington Media | April 2023 – April 2026

- Designed and optimized responsive WordPress landing pages and sales funnels to support lead generation, user experience, and conversion-focused campaigns.
- Improved website performance and page speed by optimizing plugins, images, videos, fonts, and other media assets across WordPress and Shopify websites.
- Developed Shopify product pages using improved layout structure, product visuals, and conversion-focused sections to support eCommerce sales.
- Built marketing funnels and lead capture pages in GoHighLevel to help streamline client acquisition and campaign workflows.
- Designed blog layouts and website pages for WordPress websites, ensuring clean structure, mobile responsiveness, and brand consistency.
- Set up eCommerce payment, email, and logistics integrations, including PayMongo, Xendit, Parcel Panel, Cloudflare, and SendGrid.
- Migrated fixed HTML websites into GoHighLevel while preserving page structure, styling, and responsive behavior.
- Integrated Google Analytics and tracking tools across WordPress and Shopify websites to support performance monitoring and campaign reporting.

WEB DEVELOPER / LANDING PAGE DESIGNER

Nest Marketing | 2022 – 2023

- Created high-fidelity website and landing page designs using Figma and Sketch to support client marketing and development projects.
- Built websites based on approved Figma designs, ensuring accurate layout execution, responsive design, and consistent visual presentation.
- Developed and maintained WordPress websites while applying on-page SEO best practices to improve website structure and search visibility.
- Optimized images and media assets to improve website loading speed, user experience, and overall site performance.
- Set up Google Analytics and tracking tools to monitor website traffic, user behavior, and campaign performance.
- Configured Zapier automation workflows to connect tools, reduce repetitive manual tasks, and improve process efficiency.
